

# Environmental Management

## Environmental Management

Total image of environmental load .....	27
Environmental audit .....	27
Status of ISO14001 certificate acquisition .....	28
Environment-related education .....	28
Environmental accounting .....	29
Environmental risk management .....	30

## Environmental Performance

Reduction of industrial wastes emission to zero level .....	31
Wastes reduction and cost reduction effect .....	31
Examples of industrial wastes recycling (recycling cupola dust / in-house recycling of waste sand of cores) .....	32
Saving energy measures (saving energy activities / energy consumption reduction / carbon dioxide emission reduction) .....	33
An examples of saving energy measures (an example of saving energy top-runner campaign) .....	34
Environmental measures at the office .....	35
Green procurement and purchasing .....	35
Environmental conservation measures at the distribution stage .....	36
Local environmental conservation (air and water quality conservation / measures for trouble or emergency) .....	37
Improvement of working environment .....	39
Working Environment, Examples of improvement of noisy workshops .....	39
Chemical substances control .....	40
PRTR system .....	41
Status of control of electric equipments containing PCB .....	41
Status of control of groundwater contamination .....	42
Safety and health management .....	42
